

## Introduction of myself

---

My name is Dominik Jäger and I am 16 years old.

I was born and grew up in Eitweg, a little village in Carinthia with about 700 inhabitants.

I live in a house with my mother, my father and my 19-year-old brother. My mum is called Gudrun and she is a shop assistant and my father called Karl-Heinz is a policeman. My brother is currently studying Physics and Maths at the university in Graz.

That's the reason he is only at home on Saturday and Sunday. My brother and I have a great relationship and I am very happy to have him as I can talk to him about literally everything.

My brother (left), me (right) and my mother in the background

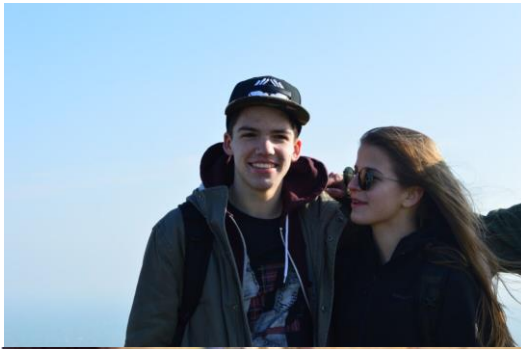

In my free time, I play football whenever possible, but I also like doing parkour or other sports like volleyball or cycling. If there is more free time, I love spending time with my friends from school. In the summer, we nearly meet daily at a lake to play volleyball or listen to music together.

Furthermore, I like reading, I love being placed in imaginary worlds and I'm often so immersed in a book that I don't even want to leave this fictional world. I am fascinated with our universe and that's the reason why I watch documentaries about space very often. I also want to be an astrophysicist when I am grown up.

Me playing football even on our school trip to Portoroz

My friends:

The greatest gift of life is friendship, and I have received it.  
– Hubert H. Humphrey
