

Migrants: our resources

- Regular migrants will be hosted in structures that Italy took away from Mafia
- They will give a social contribution, free of charge, through activities like:

- Maintenance of the beaches
- Cleaning of the green areas
- Cleaning of the beaches
- Cleaning of the Vesuvius National Park
- Cooperation with third sector activities

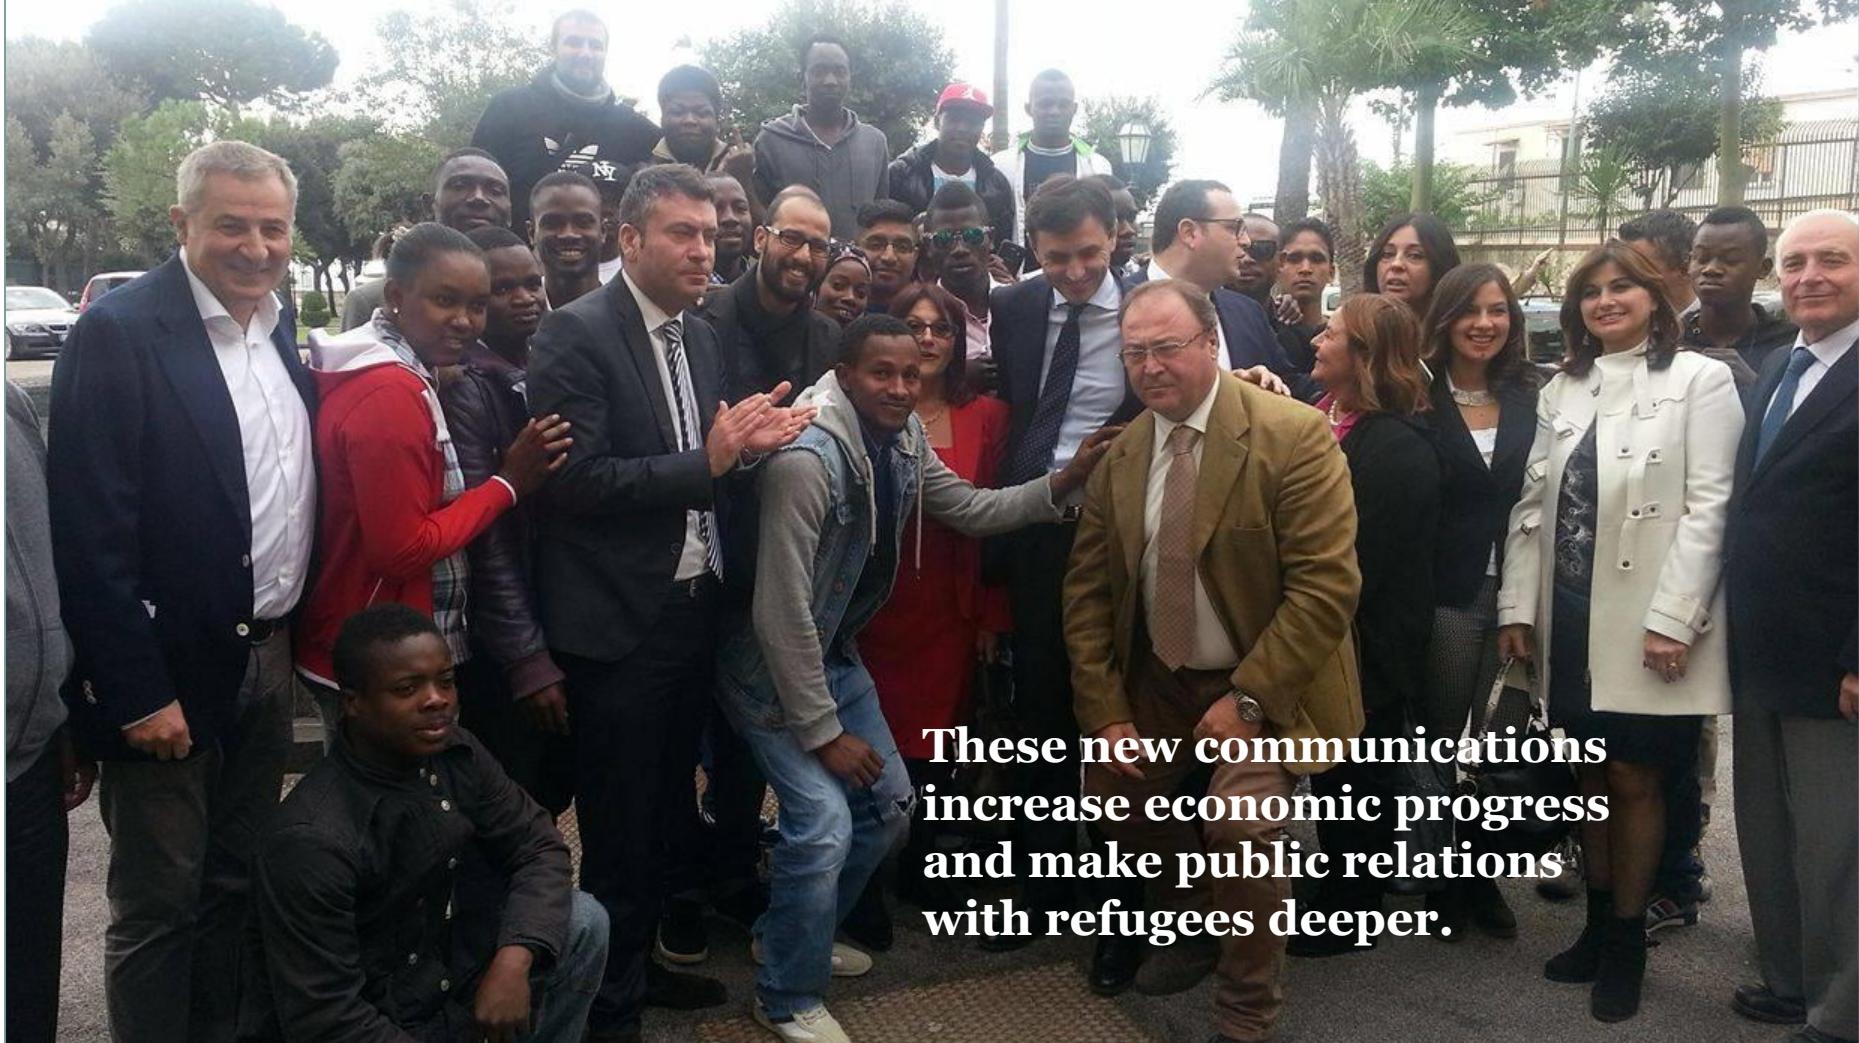

Integration in Herculaneum

A Memorandum of Understanding has been signed by the municipality of Herculaneum in order to include migrants in the social structure. This is a concrete example of how migrants can easily become a resource for our country.

Fayez Mustafa al-Sarraj and Gentiloni

Among the advantages of this protocol there is a new way to deal with society making new relationships between autochthonous citizens and immigrants.

These new communications increase economic progress and make public relations with refugees deeper.
