

# Introduction of myself

My name is Sophie Stückler and I'm 16 years old. I was born on the 12<sup>th</sup> November 2000. I live, together with my family and my pets, in a house which is situated in the near of Wolfsberg. My younger brother is called Markus and he's 12 years old. My mum's name is Cornelia and my dad is named Karlheinz.

My hobbies are swimming, horse riding, playing tennis and of course to spend time with my pets and my friends. I also love travelling and meeting people and to learn new things about other cultures.

Me and Lena

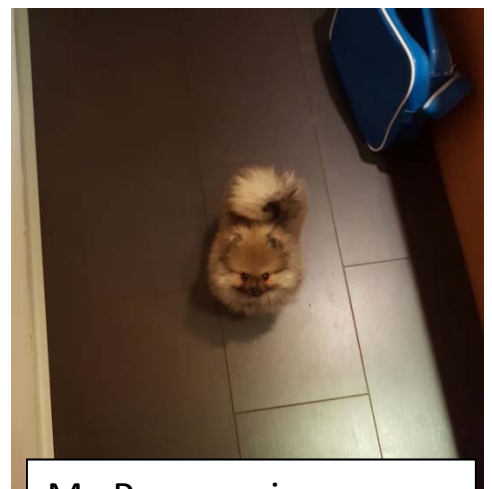

Me at the „Tanzkränzchen“

I like almost every kind of food except for spinach and meat. I've been vegetarian for 2 years now and it's primarily because of my concern for animals and also because I don't want to support factory farming and cruelty to animals.

I've already mentioned that I really love animals and that's why I'm the owner of a little dog, a cat and two bunnies. Pets are a big responsibility for sure, but I just can't live without them and they play a major role in my life.
