

Introduction of myself

Hi there!

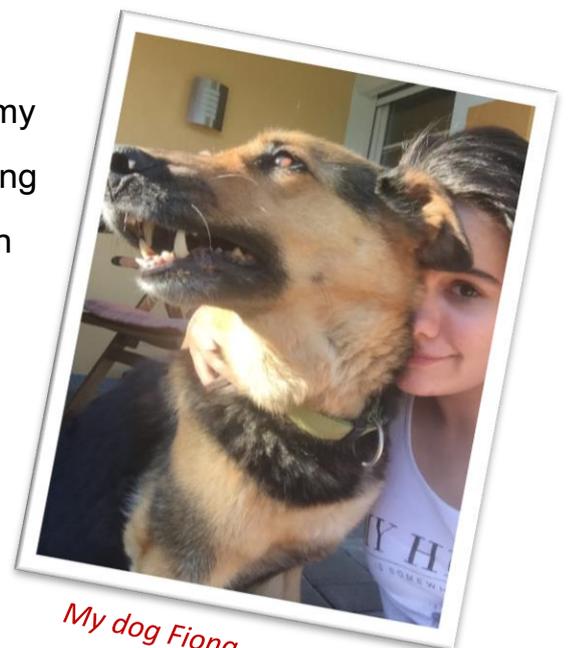

My name is Laetitia Tomasch but you can just call me „Letti“ as all the people do. I was born on the 14th September, 2000. My parents and I live in a big house in Bleiburg, a small city with about 4000 inhabitants, together with my two cats, my dog and my bunnies. My dad works as a metalworker in a small company and my mum works in an office.

As some of my friends live nearby I try to hang out with them as often as I can. Besides the stuff I have to do for school I have many hobbies that may interest you.

The one I enjoy and love most is probably drawing. I started drawing when I was just a little child and it has been the most enjoyable thing to do ever since. Although some drawings may take a time of about 20-25 hours (sometimes it is just exhausting) drawing has become one of the most important things in my life besides my family and my friends, of course. When there is no time for drawing I also do a lot of reading and spend a lot of time on playing computer games. Some people do not expect a girl to play these games but what I always say is „let the people do what they want to do and don't blame them for it.“

In my later life I would love to travel the world. Since I have not had the chance to travel to many countries yet I would love to visit Australia, New Zealand, Iceland or Ireland in the future. Travelling around the world belongs to the main goals I want to achieve in my life because I love making new experiences, getting introduced to foreign cultures and meeting new people. So all in all I can say that I am really looking forward to meeting you and I hope that you will enjoy being with me and my lovely family, welcome to my life!

That's me!
